

A 2026 INTERCULTURAL LEARNING EVENT

Do you know a music festival where everyone can participate – both professionals and amateurs?

In France, a music festival called
“Fête de la musique” - Make music day
is held every year on June 21st.
On that day, cities all across the country
are filled with music.

It's a special occasion when people connect with each other
through music.

Maëla, a Coordinator for International Relations from France,
will introduce this festival through her experience and videos.

Let's discover French musical culture
together while having fun!
