Activity report 1 | •September 4th (Sun) in Nantan City •26 participants

Disaster Preparedness Drill for International Residents

As part of the Kyoto Prefecture Comprehensive Disaster Preparedness Drill, a disaster drill for foreign residents was carried out in Nantan City.

In cooperation with the International Association of Kyotamba town, Nantan and Kameoka cities, a total of 26 people of several nationalities first gathered for a

lecture on how to ensure one's safety when a disaster strikes. Interpreting was provided English, Chinese, and Vietnamese to make sure that every participant could benefit from the life-saving information given by the staff.

Then, the group was guided to an emergency shelter to get a better idea of what those places look like. They could also experience an earthquake thanks to a simulation vehicle.

We received impressions and opinions from many of the participants, including comments such as, "this was my first time

participating in such an event, and I'm glad to have been able to learn about disaster prevention," and, "I want to talk about disaster prevention with my family." At KPIC, we will continue to work with public organizations and entities in Kyoto Prefecture to help international residents to be well prepared in case of disaster.
